

**HOW IT WORKS: PES PowerPay** is a new option to pay your electric bill. Traditionally, you are sent a bill to pay for the energy you've already used. You will no longer receive a paper or electronic bill as your electric usage is charged to your account daily. There is no minimum payment after PowerPay account is established unless it is disconnected.\* You will be responsible for monitoring your usage and making a payment before the balance drops below zero. If your account falls below zero, it will be disconnected. Service will be restored, typically within 15-30 minutes once a payment has been made on SmartHub® (web or app), at our office (during business hours), or at our front lobby kiosk\*\* 24 hours a day.

## SWITCH TO PES POWERPAY WITH AS LITTLE AS \$100!

### NEW CUSTOMERS
